The World BioEconomy Forum goes to Brazil – live from Belém!

[REGISTER ONLINE](#)

Date and location
18–20 October 2021

Program Link:
<https://wcbef.com/>

The World BioEconomy Forum is pleased to announce that its Forum 2021 will be held in Belém, in the State of Pará, Brazil from 18 - 20 October 2021. Belém is located in the Amazon region of Brazil and will give the Forum the opportunity to highlight the region as of fundamental importance to the global circular bioeconomy. The event will bring together high-level speakers and experts from around the world highlighting Belém and the Amazon region for essential debate on sustainable development.

This is the first time that the World BioEconomy Forum has left its usual location in Ruka, Finland. The Forum's advisory board is clearly aware that there is no bioeconomy that fits all, but several bioeconomies built to operate within their own regional economic systems. Therefore, the decision was made to move the Forum periodically to various locations around the world, and particularly in regions where the bioeconomy is at the centre of attention. Belém, in the state of Pará, in Brazil, is a perfect example of this.

Planning of the Forum is well under way and it will follow the agenda of the World BioEconomy Forum. The agenda consists of four thematic areas, which will be covered during the event:

- The Bioeconomy: People, Planet Policies
- Global Leaders and the Financial World
- Bioproducts around us
- Looking to the Future

Each Forum is concluded with a joint declaration.

To find out how to attend the World BioEconomy Forum, visit www.wcbef.com.
